In ordinary cases, stimulants are taken, which by their action on the nerves and muscles of the stomach, afford temporary rollef, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt srrund the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic contraction with will be the sensitive with the sensitive with the sensitive sensitive sensitive sensitive with the sensitive sensit circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Wy reply is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilfed and excellent men; but here their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheutmannian, which for year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians. anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this relief was only temporary. Farther: in the winter of '46 and '46, 'in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastornl labors.

My nerrous system was now thoroughly prostruted, and
as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these dis-orders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the per-

But reasoning from effect to cause, I concluded that the Nervous System must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopais there, seemed to be no remedial agent which could reach and PILO I' BREAD AND CRACKERS.

To MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPERSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON OCCUPAT OF THE BRONCHITIN; AND MY RHEUMATIC AF FEUTION ALSO CRASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affecions. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.
